## Access to Higher Education: Science

<b>Subject:</b>	Access to Higher Education
<b>Type:</b>	Access to Higher Education Diploma
<b>Course Code:</b>	APH062T/FM1
<b>Attendance:</b>	Full Time
<b>Location:</b>	Taunton
<b>Awarding body:</b>	Ascentis

### Who is this course for?

This very popular course is for you if you are over 19, interested in returning to education but lack confidence because you may not have appropriate qualifications. The Access to HE course is designed to meet your needs by helping you to gain new skills and qualifications. You can use the qualification to gain a place at university or to enhance your career prospects.

### Description

You choose a diploma and academic subjects suitable for your career aspiration. All our Access Diplomas are made up of three Level 3 units with graded academic subject content and other Level 2 or ungraded Level 3 academic preparation skills units, which offer generic, introductory or personal development skills.

On the Science Diploma you will therefore choose three of the following subjects: Biology, Chemistry, Higher Maths, Psychology and Physics. In addition there will be core components such as study skills, ICT, English and Maths.

What makes this course special?

- You will receive excellent teaching from outstanding staff, combined with extensive tutorial support
- A variety of exciting resources for you to use
- Speakers from Bristol University and UWE to advise on application process for university, your course choice and how to write a personal statement for UCAS
- The achievement rates are outstanding; success can improve your life in so many ways
- A variety of teaching styles will be used: discussions in small groups and as a class; seminar style work; note making and assignment writing
- You will be supported to achieve more than you thought you could
- Feedback from current students tells us the atmosphere in the classroom is friendly and helpful, the relationships between students and staff are excellent with the right blend of formality and informality

### Placements/Work Placements

Students are advised to organise their own work experience after consultation with universities.

### How long is the course?

The course runs from September until June. The precise days and times you will need to attend will depend on the combination of subjects you decide to study. This will be explained to you and discussed in detail prior to an offer of a place being made.

### What are the attendance requirements?

- The course requires you to be in University Centre Somerset for 2-3 days per week over 30 weeks
- In addition, significant self-study hours are necessary to complete the programme

### Awarding Body

Our Access course is validated through Ascentis, which is licensed as an Access Validating Agency by the Quality Assurance Agency for Higher Education (QAA), and is approved to award the Access to Higher Education Diploma. The Access Diploma to Higher Education is a nationally recognised diploma and enables learners to apply to higher education courses in universities and colleges.

### Teaching and Assessment

You will produce a portfolio of work over the year. You gain credits for the assignments you do. You accumulate credits towards the diploma. There are exams in some subjects.

### Progression Opportunities

- You will receive help and advice with the selection of university and college courses available to you, and with your application and interview procedures
- You will get lots of help in making decisions about your progression routes
- You can progress onto HE courses here at University Centre Somerset including Food Technology and Engineering

Please note: most university courses require GCSE Maths and/or English. There is opportunity to study both alongside your Access programme if you need to.

### Career Progression

Progression routes in the past have included:
