Programme specification

1. Overview/ factual information

Programme/award title(s)	FD Media Make-up
Teaching Institution	University Centre Somerset (UCS), part of Bridgwater & Taunton College (BTC)
Awarding Institution	The Open University (OU)
Date of first OU validation	2001
Date of latest OU (re)validation	April 2019
Next revalidation	April 2024
Credit points for the award	240
UCAS Code	W452
HECOS Code	Media Make Up. 100% 100706
Programme start date	September 2019
Underpinning QAA subject benchmark(s)	QAA Subject Benchmark Statement for Art and Design. February 2017 QAA Subject Benchmark Statement for Communication, Media, Film & Cultural Studies. October 2016
Other external and internal reference points used to inform programme outcomes.	Framework for Higher Education Qualifications 2014. SEEC Credit Level Descriptors 2016. Skillset Occupational Standards for Hair and Make-up. Foundation Degree Characteristics Statement 2015.
Professional/statutory recognition	N/A
Mode(s) of Study (PT, FT, DL, Mix of DL & Face-to-Face)	FT – FD Media Make-up PT – FD Media Make-up
Duration of the programme for each mode of study	FT – FD = 2 years PT – FD = 4 years
Dual accreditation (if applicable)	N/A
Date of production/revision of this specification	April 2019

Please note: This specification provides a concise summary of the main features of the programme and the learning outcomes that a typical student might reasonably be expected to achieve and demonstrate if s/he takes full advantage of the learning opportunities that are provided.

More detailed information on the learning outcomes, content, and teaching, learning and assessment methods of each module can be found in student module guide(s) and the student handbook.

The accuracy of the information contained in this document is reviewed by the University and may be verified by the Quality Assurance Agency for Higher Education.

2.1 Educational aims and objectives

FD Media Make-up

1. To provide an in depth view of the contemporary media make-up industry.
2. To develop a critical awareness of cultural issues, debates and contexts relevant to the working environment of a media make-up artist.
3. To develop a wide range of personal qualities and attitudes and reflective abilities which will prepare the student for a diversity of relevant career pathways.
4. To promote enhanced awareness of the cultural, social, historical and contemporary contexts of all media make-up disciplines.
5. To develop learners key (transferable) skills to support and complement specific make-up skills.

2.2 Relationship to other programmes and awards

(Where the award is part of a hierarchy of awards/programmes, this section describes the articulation between them, opportunities for progression upon completion of the programme, and arrangements for bridging modules or induction)

Students completing the FD in Media Make-up may progress to the BA (Hons) Top up Media Make-up.

Opportunities for progression, following further HE studies include continual education such as a Masters qualification in a related subject area. Other options could include specialist make-up and hair short courses.

Trainee positions and industry employment are both pathways that students have taken directly from graduating.

2.3 Where the 60 credit work-related learning takes place.

Students are introduced to work experience and employer links within the Professional Practice module which is launched at the beginning of the first year of the Foundation Degree (FD). Within this module students take part in two weeks' worth of work experience; some of this being facilitated by the staff team but the majority of this is arranged by the students themselves – this will provide a minimum of 84 hours of work based learning. As our students come from a wide geographical area many prefer to gain work experience closer to home during the holidays (such as the Christmas break) and the majority of students are successful in sourcing their own work experience this way. Another key section of the Professional Practice module is a case study that the students conduct. These tasks allows the students to learn more about the industry itself and gain insights into the realistic idea of working freelance within the industry, as many artists do. Each student selects an industry professional make-up artist of their choice and presents them to their peers within class in the form of a presentation. This exercise helps provide students with the confidence to contact make-up artists and gain networking experience. A lot of students have gone on to maintain regular contact with their subject of their case study and many have gained work experience through this contact.

Throughout the second year of the FD and the BA (Hons) year the students are encouraged to find their own work experience and gain any placements within their desired specialisms. The majority of students manage to find some form of work experience themselves throughout the year.

The teaching staff on the course also have a variety of links and contacts to industry that often require students for work experience, which is another way the students complete work experience placements. These opportunities are posted on the notice boards, on the VLE (Blackboard) and emailed out to students. These links range from internal college Fashion and Photography shoots, to local theatre companies, short film productions and to professional wig commissions.

The programme team have strong links and established contacts within industry and world renowned professionals who guest lecturer at the College.

The majority of the practical briefs that are set throughout the FD have an industry linked theme and context – so for each module the context is set in terms of the final outcome. This outcome is then assessed against this context to allow students the experience of working as they would in industry. Each practical assessment is set up with a typical industry time frame to again allow students to work within realistic expectations of the work place. These scenarios and contexts allow students to get a feel for work-related learning and develop practices within each of the practical modules they complete.

Work related learning takes place within Professional Practice – 20 credits.

Modules set up with realistic, work based scenario practical assessments – Make-up Investigation – 20 credits, Special FX – 30 credits, Postiche & Styling – 20 credits, Wig Making Essentials - 30 credits, Prosthetics – 20 credits, and Body Painting – 20 credits. Within Major Project – 30 credits the students also develop work related learning skills by working in negotiation with the staff team on their self-initiated brief.

2.4 List of all exit awards

Certificate of Higher Education (CertHE)

Programme structure and learning outcomes

<u>Programme Structure - LEVEL 4</u>					
Compulsory modules	Credit points	Optional modules	Credit points	Is module compensatable?	Semester runs in
MMUP440 MAKE-UP INVESTIGATION	20			Yes	1
MMUP441 SPECIAL FX	30			Yes	1
MMUP442 POSTICHE & STYLING	20			Yes	2
MMUP443 WIG MAKING ESSENTIALS	30			Yes	2
MMUP444 PROFESSIONAL PRACTICE	20			No	1,2

Level 4 Exit Award: Certificate of Higher Education (CertHE). Requires a minimum of 120 credits at Level 4.

Intended learning outcomes at Level 4 are listed below:

Learning Outcomes – LEVEL 4	
3A. Knowledge and understanding	
Learning outcomes:	Learning and teaching strategy/ assessment methods
A2 Select, experiment and evaluate a range of materials used in the production of special effects make-up.	Practical workshops, practical assessments. 1-1 tutorials, whole class teaching. Written work, journal work.
A3 Employ convergent and divergent thinking to investigate, experiment and finalise hair dressing and wig making processes.	
A4 Appraise the role of the make-up artist.	
3B. Cognitive skills	
Learning outcomes:	Learning and teaching strategy/ assessment methods

3B. Cognitive skills	
<p>B1 Plan and create a make-up suitable for the media, fashion or advertising industries.</p> <p>B2 Demonstrate the use of a range of hairdressing and postiche making skills.</p> <p>B3 Research the wig making industry.</p> <p>B4 Reflect upon work experience to inform your study practices and highlight areas for personal development.</p>	<p>Practical workshops, practical assessments.</p> <p>1-1 tutorials, formal input, whole class teaching.</p> <p>Written work, journal work.</p>
3C. Practical and professional skills	
Learning outcomes:	Learning and teaching strategy/ assessment methods
<p>C1 Articulate ideas and information in visual, oral and written forms.</p> <p>C3 Analyse materials and processes to evaluate their potential and suitability for a given context.</p> <p>C4 Identify your personal strengths and weaknesses in hairdressing and postiche and plan to develop and progress.</p> <p>C5 Examine information on historical practices from a variety of sources.</p>	<p>Practical workshops, practical assessments.</p> <p>1-1 tutorials, whole class teaching.</p> <p>Written work, journal work.</p> <p>Seminars.</p> <p>Peer assessment, peer feedback.</p> <p>Skills audits, PDP.</p> <p>Work experience.</p>
3D. Key/transferrable skills	
Learning outcomes:	Learning and teaching strategy/ assessment methods
<p>D1 Develop the use of key make-up processes in accordance to health and safety and professional practices.</p> <p>D2 Demonstrate the ability to produce final outcomes professionally and to a given timescale.</p> <p>D3 Develop transferrable skills by exercising personal responsibility through time management and decision making.</p>	<p>Practical workshops, practical assessments.</p> <p>1-1 tutorials, whole class teaching.</p> <p>Written work, journal work.</p> <p>Seminars.</p> <p>Peer assessment, peer feedback.</p> <p>Skills audits, PDP.</p> <p>Self-directed study.</p>

3D. Key/transferable skills

D4 Apply entrepreneurial skills to support and promote your own practice or the practice of others.

Library workshops / sessions.
Work experience.

Programme Structure - LEVEL 5					
Compulsory modules	Credit points	Optional modules	Credit points	Is module compensatable?	Semester runs in
MMUP550 DESIGN METHODS	20			Yes	1
MMUP551 PROSTHETICS	20			Yes	1 OR 2
MMUP552 MAKE-UP CULTURE & CRITICAL STUDY	30			No	1 & 2
MMUP553 BODY PAINTING	20			Yes	1 OR 2
MMUP554 MAJOR PROJECT	30			No	2

Level 5 Exit Award: Foundation Degree (FD). Requires a total of 240 credits (minimum of 120 credits must be at Level 5).

Intended learning outcomes at Level 5 are listed below:

Learning Outcomes – LEVEL 5	
3A. Knowledge and understanding	
Learning outcomes:	Learning and teaching strategy/ assessment methods
A5 Select, test and make appropriate use of materials and processes to communicate ideas visually.	Practical workshops, practical assessments. 1-1 tutorials, whole class teaching. Written work, journal work. Formal input. Seminars. Self-directed study.
A6 Compare and contrast the materials and techniques used within the prosthetic industry and how they have evolved.	
A7 Investigate the impact of social, cultural and political influences on media make-up.	
A8 Generate ideas, concepts, proposals, solutions or arguments independently in response to a self-initiated brief.	

3B. Cognitive skills	
Learning outcomes:	Learning and teaching strategy/ assessment methods
B5 Apply concepts and principles of anatomy to the creation of make-up designs.	Practical workshops, practical assessments. 1-1 tutorials, whole class teaching. Group critiques. Written work, journal work. Seminars. Peer learning. Self-directed study.
B6 Assess and make use of the interaction between process, experimentation, test and evaluation.	
B7 Critically appraise information and experiences and formulate reasoned arguments. Integrate theory, context, and practice and synthesise and structure information.	
B8 Examine and evaluate artists work in one or more designated area such as commercial, promotional, contextual design, and collaboration.	
B9 Critically analyse information and propose solutions to problems.	
3C. Practical and professional skills	
Learning outcomes:	Learning and teaching strategy/ assessment methods
C6 Articulate and construct ideas and information in visual and written forms.	Practical workshops, practical assessments. 1-1 tutorials, whole class teaching. Group critiques, group work. Presentations. Written work, journal work. Seminars, lectures. Peer learning and feedback. Self-directed study. Computer based design work.
C7 Identify relevant research sources. Retrieve and generate information in carrying out independent research.	
C8 Interact effectively with others, for example through collaboration, collective endeavour and negotiation.	
C9 Present ideas and work to audiences.	

3D. Key/transferable skills

Learning outcomes:	Learning and teaching strategy/ assessment methods
D5 Create design ideas and communicate intentions visually. D6 Develop the use of key production processes such as photographing final transformations and team work skills along with professional practices.	Practical workshops, practical assessments. 1-1 tutorials, whole class teaching. Group work. Presentations. Written work, library workshops / sessions Seminars, lectures. Peer learning and feedback. Self-directed study. Self-reflection and evaluation.

4. Distinctive features of the programme structure

- **Where applicable, this section provides details on distinctive features such as:**

- where in the structure above a professional/placement year fits in and how it may affect progression
- any restrictions regarding the availability of elective modules
- where in the programme structure students must make a choice of pathway/route

- Students are equipped with a range of skills securely underpinned by knowledge of the fundamental principles of media make-up, and a full range of industry areas are covered throughout the FD.
- Students gain a clear understanding of how to apply skills and how to develop them for best use of current and new practices. Professional modules allow skill sets to be focused and industry based.
- Students develop and formalise strategies and problem-solving skills, and other general transferable skills appropriate to employment.
- The programme incorporates substantial work-based learning which encourages learners to deliver solutions to problems and gives opportunities to work on 'live' projects designed by industry practitioners.
- The programme incorporates various modes of delivery for flexibility and diversity, as part of the College's Widening Participation Agenda. Guest Speakers are used to enrich the programme and are selected to enhance and compliment the core media make-up teaching team; adding context to broaden students' understanding of the needs of a demanding industry.
- The teaching team provide a friendly and encouraging tutorial support system. Students receive regular one-to-one support during their progression.
- The design of programme module content and assessment allows students to be given autonomy to develop their own specialisms, and record (and reflect on) their own professional development; which is an essential skill within industry.

5. Support for students and their learning.

Academic Teaching and Support

Project work

These take a number of forms but have a tendency to follow a similar pattern:

- a) Introductory sessions with a presentation of the proposal with slides etc.
- b) Studio or workshop supervision
- c) Monitoring tutorials and seminars
- d) Presentation of work
- e) Assessment

Modes of learning

A wide variety of teaching and learning methods are utilised throughout the programme. These range from one-to-one tutorials to lectures; and from highly structured workshops, demonstrations and projects to negotiated independent study. Within the timetable are periods where students will have the opportunity to study on their own. These are in place to allow students to continue to develop their practical and creative skills.

Individual Tutorials

1:1 tutorials with a personal tutor are considered to be effective agents for monitoring student progress and providing in-depth advice, constructive criticism and the exchange of ideas necessary for satisfactory development.

Tutorials are either individual or held as group meetings. Students are allocated a personal tutor when they start the course. This person will be a member of the course teaching team and will provide pastoral and academic support.

In addition to regular group criticism/oral assessments with the tutors, a review of personal progress with a personal tutor will take place at least twice during an academic year. There will be opportunities throughout the year to talk about the programme and discuss a personal action plan in relation to both coursework and employment objectives.

Small Group Tutorials

Small group tutorials are employed throughout the year and are particularly useful in the studio context to facilitate the exchange of ideas and as a forum for critical debate about practical work in progress, in order to support written work.

Lecturers will aim to hold a subject group tutorial for each module. This is a meeting of a small group where students will have a chance to demonstrate what they have learnt and understood. This gives students the opportunity to clarify areas that they are not sure about, the lecturer will manage the tutorial although the focus is on student feedback. Students may be asked to prepare materials in advance or to make a presentation or lead the tutorial in an informal way. Students should always come to these sessions and be prepared to engage, in order to develop their own professional practice.

Seminars

These are employed throughout the programme as a means of disseminating information, introducing new topics or projects, debating issues, providing stimulus material and encouraging the development of critical and common skills. Students may be encouraged to give seminar presentations (individually or with other students) to their peers, about their own work and other topics at various points within the programme.

Lectures

These are employed as a means of disseminating information, introducing new topics or projects and providing stimulus material.

Most modules include a mixture of theory and practical sessions (studio/workshop). These sessions may be delivered independently or integrated within a theory session introducing a practical activity.

A lecture will involve the staff member speaking and the student listening, but they are encouraged to take more than a passive level of involvement. They are encouraged to develop note-taking skills and other techniques to help them get the most out of a lecture, which include general principles such as:

- Notes need to be an accurate record of the key points discussed;
- They should be neat and tidy and in such a form that they can be supplemented easily;
- They should be presented in a logical fashion and cover the essential topics;
- Students should make a note of their own questions and leave space to insert solutions later; and
- Keep a clear record of references as these will be useful later during research and independent study.

In some lectures, students are provided with handouts of diagrams, key concepts or even the material used to deliver the lecture in the form of presentation slides. These are published for reference on the VLE (Blackboard). Reading handouts or slides is not a substitute for attending a lecture, students are encouraged to attend 100% of lectures; as they may miss important information.

Practical Sessions

Workshop or studio sessions involve the lecturer, or technical support demonstrating a particular activity followed by students' experimentation. The demonstration may not always take place at the beginning of a session, students may be encouraged to try out a technique first and receive advice and guidance throughout the session.

It is really important to attend these sessions appropriately dressed and on time – the first 10 minutes are invariably key to the whole session. There is much to gain from these sessions as many assessments are carried out in a practical setting. This is real preparation for life as a media make-up artist.

Students are reminded to:

- Arrive in good time for their session, dressed appropriately and with the required kit.
- Carry out any preparation work that has been set prior to the session, this could be researching a topic or discussing an idea in a group.
- Follow all health and safety guidelines.
- Take notes and raise any questions at an appropriate time.

- Manage their own time effectively during the session to ensure all required tasks are attempted effectively. Students learn how to prioritise tasks and which to spend the most time on.

Students will be given advice on how to get the most out of lectures and practical sessions during their induction period.

Workshops and Demonstrations

These are particularly useful to introduce and develop competence in the handling of materials, equipment and technical processes. This includes implementation of health and safety procedures and the development of professional workshop and studio practice.

In addition to make-up studios and photography studios, students are given access to metal, wood, plaster, clay, 3D areas and Fashion and Textiles workshops and machines, all of which are operated by members of staff. Students may use these facilities independently after an appropriate, structured and documented workshop induction programme overseen by a qualified LSC Technician.

Peer Group Discussions

For most of their time on the programme, students work in open studios and workshops. Day-to-day interaction within these environments naturally means that they engage in a long-term dialogue about their work with their peers; either on a one-to-one basis or in groups. This interaction is an important feature of the programme and is encouraged by staff, who may occasionally participate, or are instrumental in starting a discussion or bringing together students who have something in common or who would benefit from critical interaction. Peer group discussions help to develop networks of support and enhance the process of recognising, respecting and debating differences of opinion.

Study Groups

In all of our programmes, the College encourages students to learn skills to enable them to work well within teams. These are not merely useful during their studies, as such skills and experiences are invaluable in the workplace. Module assessments will include activities completed as a group. Students benefit significantly from working collaboratively in study groups, to check their understanding of difficult issues or concepts and to prepare for practical activities and assessments. Students are often expected to take part in active feedback and discussion in these sessions in order to build a detailed understanding of those concepts by further reading and research, discussion and working through problems in study groups and tutorials.

Critiques

Critiques take place at appropriate points in the development of project work and at regular intervals during periods of study. Students present their work in progress, or

completed work, for critical discussion by a group of fellow students; usually in the presence of a member of staff and/or a guest lecturer from industry who monitors and guides the discussion, where appropriate. This helps students to be able to talk confidently about their own work, assimilating and responding to criticism, and defending decisions and ideas where necessary. Participants are encouraged to be honest and open, to balance criticism with advice and support. The development of the maturity to exchange ideas and judgements with others is essential to sound professional practice and to the learning process.

Further support available for student learning:

LRC – Learning Resource Centre and HE Study Centre

The Taunton Campus has a team of professional librarians and learning resource assistants. The centres at each of the 3 College campuses have been designed with all the necessary support staff and services to meet the curriculum requirements, the needs of students and the accelerating development of technology supported learning. LRC staff also deliver the College's HEAD Start sessions (Higher Education Academic Development) which aim to develop the skills and attitudes, including understanding and evaluating information to the level of a HE student.

The sessions cover topics such as:

- Bridgwater and Taunton College LRC resources available via Blackboard
- Partner University Portal and university library resources
- Referencing
- Plagiarism
- Selection and evaluation of resources
- Research skills

Student VLE – Blackboard

This is the virtual learning environment and should be accessed regularly, it will be used to provide students with key information, e.g. handouts, work experience opportunities, timetabling, assignment deadline reminders, and assignment advice. Students may also be contacted by text or e-mail and should check their College email account regularly.

Typically online resources cover:

- Presentations
- Essay Writing
- Referencing
- Time Management
- Reading and Note-taking
- Revision and Examinations

6. Criteria for admission

- Applicants require 64 UCAS points.
- Relevant Level 3 qualification (Media Make-up, Art and Design or similar)
- Also required are 4 GCSEs to include English, preferably Maths and Art at grade A-C / 9-4 (or equivalent).
- In addition a portfolio will be required at interview.

7. Language of study

English

8. Information about non-OU standard assessment regulations (including PSRB requirements)

FD Media Make-up is in line with the standard regulations.
There is no involvement of any Professional or Regulatory Body.

9. Methods for evaluating and improving the quality and standards of teaching and learning.

All programme teams participate in Annual Programme Monitoring during their Programme Committee Meeting every Autumn. This process involves obtaining student views as well as the views of the staff who delivered each module and where appropriate may consider the views of employers who have been involved with the programme. In order to ensure robust evaluation of the programme, the programme team also consider the programme statistics, (including retention, achievement, gender and ethnicity), and student survey results, in addition to the External Examiner report. The programme team produce an action plan based on their evaluation to assist in bringing about the developments they have identified. Each Spring, the Programme Committee Meeting is held again to review progress with the action plan and to canvas opinions from staff, students and employers connected to the programme. This evaluation process is overseen by the cross-college HE Senate, the Senate receives summary reports of all HE matters in the Autumn and Spring and produces and monitors a top level cross-

college HE Enhancement Action Plan as a result.

BTC run a formal peer observation scheme and every lecturer is observed at least once each year. Areas of good practice are identified as part of this process and shared across the programme area team. Areas for development are also highlighted to individuals to help each member of teaching staff in their own personal development. If required, a Developmental Action Plan is produced for any member of staff whose lesson observation identifies the need to improve. The College's Teaching, Learning and Assessment Quality Developers support teaching staff through CPD activities and regular Teach Meet sessions. Frequent Continuing Professional Development (CPD) sessions are run at the College for academic staff, to share good practice and to support effective teaching and learning.

University Centre Somerset, part of Bridgwater and Taunton College has a formal structure for hearing the student voice. In addition to programme level activities designed for students to feedback comments to their teaching team, the College also appoints a student representative for each Curriculum Area. This representative collates comments from the Curriculum Area team meetings and feeds back to a central meeting attended by managers from across the College. The focus of this meeting is to obtain feedback about any cross College matters, or unresolved issues as well as highlighting matters to celebrate from across the curriculum areas. In addition to this the Learning Resource Centre hold regular student forums to gain feedback which helps them to improve their service to learners. Students are asked to complete written surveys (First Impressions, Student Perception Questionnaire and the National Student Survey (NSS), in order to formally record their impressions of their programme of study.

These mechanisms are all designed to evaluate and improve the quality and standards of teaching and learning.

10. Changes made to the programme since last (re)validation

No minor or major changes have been made to the programme since validation in 2014. The programme has been updated during revalidation in the academic year 2018-19.

Curriculum map

This table indicates which study units assume responsibility for delivering (shaded) and assessing (✓) particular programme learning outcomes.

Level	Study module/unit	Programme outcomes															
		A2	A3	A4	B1	B2	B3	B4	C1	C3	C4	C5	D1	D2	D3	D4

Module specification

1. Factual information			
Module title	MMUP440 Make-up Investigation		
Module tutor	Rhiannon Salter	Level	4
Module type	Taught	Credit value	20
Mode of delivery	100% face-to-face		
Notional learning hours	200 hours including: 60 hours taught including tutorials 140 independent learning		
2. Rationale for the module and its links with other modules			
<p>This module introduces the student to the principals of cosmetic treatments and make-up processes. Students will investigate the concept of make-up and evaluate the universal factors that define beauty. An introduction to media, advertising and visual culture will begin to examine the wider issues affecting make-up artists. A range of specialist skills will be implemented and developed throughout this module to create a complete make-up look for a photographic shoot.</p>			
3. Aims of the module			
<ul style="list-style-type: none"> • To achieve a broad awareness of cosmetic principles and techniques within media make-up. • To be able to recognise the role of the make-up artist within a given context. • To develop an understanding of appropriate health and safety working practices. • To examine the make-up industry and beauty culture in the wider context. 			
4. Pre-requisite modules or specified entry requirements			
UCAS entry requirements.			
5. Is the module compensatable?			
Yes			
6. Are there any PSRB requirements regarding the module?			
n/a			

7. Intended learning outcomes		
B. Cognitive skills	Programme Learning Outcome(s) this maps against	Learning and teaching strategy
<i>At the end of the module learners will be expected to:</i> B1 Plan and create a make-up suitable for the media, fashion or advertising industries.	B1	Practical workshops, practical assessments. 1-1 tutorials, formal input, whole class teaching. Written work, journal work.
C. Practical and professional skills	Programme Learning Outcome(s) this maps against	Learning and teaching strategy
<i>At the end of the module, learners will be expected to:</i> C1 Articulate ideas and information in visual, oral and written forms.	C1	Practical workshops, practical assessments. 1-1 tutorials, whole class teaching. Written work, journal work. Skills audits, PDP.
D Key transferable skills	Programme Learning Outcome(s) this maps against	Learning and teaching strategy
<i>At the end of the module, learners will be expected to:</i> D1 Develop the use of key make-up processes in accordance to health and safety and professional practices.	D1	Practical workshops, practical assessments. 1-1 tutorials, whole class teaching. Written work, journal work. Seminars. Peer assessment, peer feedback.

8. Indicative content.

Lecture topics include Concepts of Beauty – Classic Proportions, the golden rule, Dr Stephen Marquardt's Mask, scientific ratios of symmetry, cultural and historical perceptions of beauty, exploration of the psychology of make-up, issues of attraction, portrayal, identity, status and introduction to visual culture and the advertising industry and the sociological pressure to be beautiful. Examine type casting and the role of make-up within celebrity and the media.

- Develop technical processes, types of make-up, Individual colour implications, application techniques, contextual make-up applications, removal and fixatives.
- Health and Safety protocol regulations, procedures, contra indications and working requirements as a make-up artist.

9. Assessment strategy, assessment methods, their relative weightings and mapping to module learning outcomes

Assessment Strategy:

Coursework 50%

Practical skills assessment 50%

The project will include a practical element and submission of a journal.

Student will demonstrate an understanding of the taught theories and materials in relation to the learning outcomes. Evidence of research and personal reading is required.

Assessment Task	Weighting	Threshold (if applicable)	Week submitted	Grading (e.g. Pass / Fail / %)	Module Learning Outcome(s) the assessment task maps to
Journal	50%			%	C1

9. Assessment strategy, assessment methods, their relative weightings and mapping to module learning outcomes					
Practical	50%			%	B1 D1

11. Teaching staff associated with the module	
Name and contact details	
Rhiannon Salter – SALTERR@btc.ac.uk	
Brodie Nichols – NICHOLSB@btc.ac.uk	

12. Key reading list	
<p>Arogundade, B. (2000) <i>Black beauty</i>. London: Pavilion.</p> <p>Aucoin, K. (2000) <i>Face forward</i>. London: Little, Brown and Company.</p> <p>Aucoin, K. (1997) <i>Making faces</i>. Module specification

1. Factual information			
Module title	MMUP441 Special FX		
Module tutor	Rhiannon Salter	Level	4
Module type	Taught	Credit value	30
Mode of delivery	100% face-to-face		
Notional learning hours	300 hours including: 90 hours taught including tutorials 210 independent learning		

2. Rationale for the module and its links with other modules

This module focuses on the concepts of special effects make-up. It will allow students to develop theories, practices and processes for special effects work. Students will develop creative and experimental skills whilst working with a variety of life casting, special effects and prosthetic materials. The students will create character make-ups and learn the differences when designing and applying within theatre and film / TV. The module will develop personal and professional skills whilst stimulating an approach to practical creativity within given contexts.

3. Aims of the module

- To introduce students to specialist make-up skills and processes.
- To develop student's awareness of design for make-up in relation to given contexts.
- To develop professional and safe approaches to life casting procedures and prosthetic work.
- To introduce students to appropriate theories and technical knowledge in creating prosthetic make-up transformations.
- To introduce a critical awareness of the properties and uses of a variety of prosthetic making materials.

4. Pre-requisite modules or specified entry requirements

UCAS entry requirements.

5. Is the module compensatable?

yes

6. Are there any PSRB requirements regarding the module?

n/a

7. Intended learning outcomes		
A. Knowledge and understanding	Programme Learning Outcome(s) this maps against	Learning and teaching strategy
<p><i>At the end of the module, learners will be expected to:</i></p> <p>A2 Select, experiment and evaluate a range of materials used in the production of special effects make-up.</p>	A2	Practical workshops, practical assessments. 1-1 tutorials, whole class teaching. Written work, journal work. Seminars. Work experience.
C. Practical and professional skills	Programme Learning Outcome(s) this maps against	Learning and teaching strategy
<p><i>At the end of the module, learners will be expected to:</i></p> <p>C3 Analyse materials and processes to evaluate their potential and suitability for a given context.</p>	C3	Practical workshops, practical assessments. 1-1 tutorials, whole class teaching. Written work, journal work. Seminars. Peer assessment, peer feedback. Skills audits, PDP. Work experience.
D Key transferable skills	Programme Learning Outcome(s) this maps against	Learning and teaching strategy
<p><i>At the end of the module, learners will be expected to:</i></p>	D2	Practical workshops, practical assessments. 1-1 tutorials, whole class teaching.

D Key transferable skills	Programme Learning Outcome(s) this maps against	Learning and teaching strategy
D2 Demonstrate the ability to produce final outcomes professionally and to a given timescale.		Written work, journal work. Seminars. Peer assessment, peer feedback.

8. Indicative content.
<p>The programme will include lectures, guest speakers, demonstrations and workshops.</p> <p>Topics will include:</p> <p>The work of the special effects make-up artist, the notion of three dimensional make-ups, special effects, life casting and introduction to sculpting for prosthetic make-up, methodology and theories of special effects making processes and application and safe working practices for special effects make-up artists.</p>

9. Assessment strategy, assessment methods, their relative weightings and mapping to module learning outcomes

Module specification

1. Factual information			
Module title	MMUP442 Postiche & Styling		
Module tutor	Rhiannon Salter	Level	4
Module type	Taught	Credit value	20
Mode of delivery	100% face-to-face		
Notional learning hours	200 hours including: 60 hours taught including tutorials 140 independent learning		

2. Rationale for the module and its links with other modules

This module provides an introduction to hairdressing and postiche skills. Learners will explore how hairdressing and postiche can influence and help to create characters for productions. Students will develop professional postiche and hairdressing skills alongside make-up application and critically evaluate integrated postiche and hairdressing as part of make-up transformations.

3. Aims of the module

- Develop basic hairdressing techniques, styling methods and appropriate make-up.
- Develop technical ability to meet professional standards and industrial requirements for hairdressing and postiche.
- Enable students to interpret design specifics with regard to context, genre and the director's vision.

4. Pre-requisite modules or specified entry requirements

UCAS entry requirements.

5. Is the module compensatable?

yes

6. Are there any PSRB requirements regarding the module?

n/a

7. Intended learning outcomes	
--------------------------------------	--

B. Cognitive skills	Programme Learning Outcome(s) this maps against	Learning and teaching strategy
<i>At the end of the module learners will be expected to:</i> B2 Demonstrate the use of a range of hairdressing and postiche making skills.	B2	Practical workshop. Formal input. Seminars. Whole class teaching. Self-directed study.

C. Practical and professional skills	Programme Learning Outcome(s) this maps against	Learning and teaching strategy
<i>At the end of the module, learners will be expected to:</i> C4 Identify your personal strengths and weaknesses in hairdressing and postiche and plan to develop and progress.	C4	Practical workshop. Formal input. Seminars. Whole class teaching. Self-directed study.

D Key transferable skills	Programme Learning Outcome(s) this maps against	Learning and teaching strategy
<i>At the end of the module, learners will be expected to:</i>		Practical workshop.

D Key transferable skills	Programme Learning Outcome(s) this maps against	Learning and teaching strategy
D3 Develop transferrable skills by exercising personal responsibility through time management and decision making.	D3	Formal input. Seminars. Whole class teaching. Self-directed study.

8. Indicative content.
<ul style="list-style-type: none"> • Exploring the necessity and extent of postiche and associated period make-up within a production. • Identify hair merchants, buying hair, knotting implications, tools and equipment, different types or foundation lace and net. • Performing different hair styling techniques. • Develop technical knotting processes, for facial hair, template making, blocking, whipping, cutting and styling of facial postiche. • Identify Health & Safety protocol in postiche and hair work.

Module specification

1. Factual information			
Module title	MMUP443 Wig Making Essentials		
Module tutor	Brodie Nichols	Level	4
Module type	Taught	Credit value	30
Mode of delivery	100% face-to-face		
Notional learning hours	300 hours including: 90 hours taught including tutorials 210 independent learning		

2. Rationale for the module and its links with other modules

This module provides an introduction to the wig making industry, analysing the effective use of postiche and hairdressing within film, television and theatre productions. Students will develop professional hairdressing and wig making skills and critically evaluate design specifics in a historical context.

3. Aims of the module

- To enable students to examine and appraise the diversity of wig making organisations and the expectations of the wig department /wigmaker in a production situation.
- To enable students to engage in the design implications for historical and contextual productions.
- To provide an opportunity for students to achieve an ability to integrate postiche into a given style.

4. Pre-requisite modules or specified entry requirements

UCAS entry requirements.

5. Is the module compensatable?

yes

6. Are there any PSRB requirements regarding the module?

n/a

7. Intended learning outcomes		
A. Knowledge and understanding	Programme Learning Outcome(s) this maps against	Learning and teaching strategy
<i>At the end of the module, learners will be expected to:</i> A3 Employ convergent and divergent thinking to investigate, experiment and finalise hair dressing and wig making processes.	A3	Practical workshops, practical assessments. 1-1 tutorials, whole class teaching. Written work, journal work. Seminars.
B. Cognitive skills	Programme Learning Outcome(s) this maps against	Learning and teaching strategy
<i>At the end of the module learners will be expected to:</i> B3 Research the wig making industry.	B3	Practical workshops, practical assessments. 1-1 tutorials, whole class teaching. Written work, journal work.
C. Practical and professional skills	Programme Learning Outcome(s) this maps against	Learning and teaching strategy
<i>At the end of the module, learners will be expected to:</i> C5 Examine information on historical practices from a variety of sources.	C5	1-1 tutorials, whole class teaching. Written work, journal work.

8. Indicative content.

- The postiche and wig making environment its structure and organisations, commercial and repertory theatre, Television providers, independent wig companies. Job specifics within a working department.
- Develop technical processes, assessing postiche requirements, facial postiche lace front and part wigs, foundation construction, the wig fitting, maintenance, cleaning, blocking, dressing, application, removal and care for pastiche.
- Identify the variations in the use of hairdressing techniques when applied to postiche and historical hair work.
- Examine the importance of communicative skills between the wig and hair team, the acting company and designer/artistic director.
- Examine current trends and technological advances in wig making and hair styling.
- Examine the transitional stages from initial design concepts through to convincing, character transformations.
- Explore the design implications for a historical, and other contextual productions.

9. Assessment strategy, assessment methods, their relative weightings and mapping to module learning outcomes

Module specification

1. Factual information			
Module title	MMUP444 Professional Practice		
Module tutor	Brodie Nichols	Level	4
Module type	Taught	Credit value	20
Mode of delivery	100% face-to-face		
Notional learning hours	200 hours including: 60 hours taught including tutorials 140 independent learning		

2. Rationale for the module and its links with other modules

This module will introduce Personal Development Planning (PDPs). Students will complete work experience and external projects throughout this module and will be required to reflect upon their work-based learning and experiences within a reflective written piece.

This module is designed to enable students to demonstrate that they have the qualities and transferable skills necessary for relevant employment requiring the exercise of responsibility and decision making, including the ability to relate their professional practice to underlying theory and principles. The students will develop self-promotion techniques and build a range of key documents that will assist them within the industry.

3. Aims of the module

- To enable students to develop a comprehensive portfolio of evidence that supports their career development and practice.
- To enable students to demonstrate an approach to their practice that is informed by up to date and relevant theoretical perspectives.
- To gain a more in-depth understanding of the media make-up industry.

4. Pre-requisite modules or specified entry requirements

UCAS entry requirements.

5. Is the module compensatable?

No

6. Are there any PSRB requirements regarding the module?

n/a

7. Intended learning outcomes		
A. Knowledge and understanding	Programme Learning Outcome(s) this maps against	Learning and teaching strategy
<i>At the end of the module, learners will be expected to:</i> A4 Appraise the expectations of the role of the make-up artist.	A4	Practical workshops, practical assessments. 1-1 tutorials, whole class teaching. Written work, journal work. Seminars. Work experience.
B. Cognitive skills	Programme Learning Outcome(s) this maps against	Learning and teaching strategy
<i>At the end of the module learners will be expected to:</i> B4 Reflect upon work experience to inform your study practices and highlight areas for personal development.	B4	Peer assessment, peer feedback. Skills audits, PDP. Work experience.
D Key transferable skills	Programme Learning Outcome(s) this maps against	Learning and teaching strategy
<i>At the end of the module, learners will be expected to:</i> D4 Apply entrepreneurial skills to support and promote your own practice or the practice of others.	D4	Skills audits, PDP. Work experience.

8. Indicative content.

Through a series of tutorials, and specialist referral if necessary, students will be introduced to:

- Academic literacy and research conventions in their chosen field;
- The requirements of professional practice;
- Informed reflection, self-evaluation and personal action planning;
- Relevant ICT competences to support academic and professional practice.

9. Assessment strategy, assessment methods, their relative weightings and mapping to module learning outcomes

Assessment Strategy:

Coursework 100%

A minimum of 2 weeks' worth of work placement is required – this should equate to a minimum of 84 hours.

Assessment Task	Weighting	Threshold (if applicable)	Week submitted	Grading (e.g. Pass / Fail / %)	Module Learning Outcome(s) the assessment task maps to
Portfolio including essay	80%			%	A4 B4
Presentation	20%			%	D4

Module specification

1. Factual information			
Module title	MMUP550 Design Methods		
Module tutor	Andy Howell	Level	5
Module type	Taught	Credit value	20
Mode of delivery	100% face-to-face		
Notional learning hours	200 hours including: 60 hours taught including tutorials 140 independent learning		
2. Rationale for the module and its links with other modules			
<p>In this module the student will be given autonomy to explore project briefs in an individual way. The student will be encouraged to take an experimental, yet informed, approach to the visual development of their work as a make-up artist. They will further develop and refine both receptivity and application of visual language, exploring materials and processes to create original and innovative solutions to visual problems. Students will develop knowledge and appreciation for anatomy and form and apply this to their design work.</p>			
3. Aims of the module			
<ul style="list-style-type: none"> • To develop student's self-management and personal progression by identifying and using resources and further developing cognitive and practical skills. • To enable students to demonstrate their creativity and innovation. • To enable students to complete a visual journal, used as a research tool to explore, develop and solve make-up design problems. 			
4. Pre-requisite modules or specified entry requirements			
Completion of all modules at level 4 including 84 hours of work-based learning.			
5. Is the module compensatable?			
yes			
6. Are there any PSRB requirements regarding the module?			
n/a			

7. Intended learning outcomes		
A. Knowledge and understanding	Programme Learning Outcome(s) this maps against	Learning and teaching strategy
<p><i>At the end of the module, learners will be expected to:</i></p> <p>A5 Select, test and make appropriate use of materials and processes to communicate ideas visually.</p>	A5	Practical workshops, practical assessments. 1-2 tutorials, whole class teaching. Presentations. Self-directed study. Self-reflection and evaluation.
B. Cognitive skills	Programme Learning Outcome(s) this maps against	Learning and teaching strategy
<p><i>At the end of the module learners will be expected to:</i></p> <p>B5 Apply concepts and principles of anatomy to the creation of make-up designs.</p>	B5	Practical workshops, practical assessments. 1-1 tutorials, whole class teaching. Seminars, lectures. Peer learning and feedback. Self-directed study.
C. Practical and professional skills	Programme Learning Outcome(s) this maps against	Learning and teaching strategy
<p><i>At the end of the module, learners will be expected to:</i></p> <p>C6 Articulate and construct ideas and information in visual and written forms.</p>	C6	Practical workshops, practical assessments. 1-1 tutorials, whole class teaching. Written work, library workshops / sessions Seminars, lectures. Self-directed study.

8. Indicative content.

- Further investigation of visual language through image making in a variety of mixed media; looking at line, tone, form, structure, space, composition and colour.
- Working through project briefs.
- Using Visual Journal to record research and generate and develop visual ideas.
- Presentation of work to high standard of visual literacy.

9. Assessment strategy, assessment methods, their relative weightings and mapping to module learning outcomes

Assessment Strategy:

Coursework: 100% to include a journal along with 2D and 3D practical outcomes.

Assessment Task	Weighting	Threshold (if applicable)	Week submitted	Grading (e.g. Pass / Fail / %)	Module Learning Outcome(s) the assessment task maps to
Journal	40%			%	C6
2D/3D Practical outcomes	60%			%	A5 B5

Creating character prosthetics in silicone: preparing for and sculpting the prosthetic appliance (2007) Neill Gorton Prosthetics Studio.

DVDs available from Taunton LRC and articles available from online databases

Module specification

1. Factual information			
Module title	MMUP551 Prosthetics		
Module tutor	Brodie Nichols	Level	5
Module type	Taught	Credit value	20
Mode of delivery	100% face-to-face		
Notional learning hours	200 hours including: 60 hours taught including tutorials 140 independent learning		

2. Rationale for the module and its links with other modules

This module will enable students to select and apply appropriate prosthetic materials and techniques in the realisation of their own prosthetic design transformations. Students will investigate and appraise the work of others to gain an insight into the evolution of prosthesis. A more independent approach will be implemented for this project encouraging students to formulate their own solutions to complicated make-up transformations and demonstrate increased autonomy in practical application. Issues of sustainability will be examined within this module.

3. Aims of the module

- To enable students to further investigate the disciplines of prosthetics make-up through process, experimentation and application.
- To introduce students to a wide breadth of skills allowing them to carry out independent enquiry, research and investigation.

4. Pre-requisite modules or specified entry requirements

Completion of previous level 4 modules.

5. Is the module compensatable?

yes

6. Are there any PSRB requirements regarding the module?

n/a

7. Intended learning outcomes		
A. Knowledge and understanding	Programme Learning Outcome(s) this maps against	Learning and teaching strategy
<p><i>At the end of the module, learners will be expected to:</i> A6 Compare and contrast the materials and techniques used within the prosthetic industry and how they have evolved.</p>	A6	Practical workshops, practical assessments. 1-3 tutorials, whole class teaching. Seminars, lectures. Self-directed study. Self-reflection and evaluation.
B. Cognitive skills	Programme Learning Outcome(s) this maps against	Learning and teaching strategy
<p><i>At the end of the module learners will be expected to:</i> B6 Assess and make use of the interaction between process, experimentation, test and evaluation.</p>	B6	Practical workshops, practical assessments. 1-4 tutorials, whole class teaching. Group work. Presentations. Seminars, lectures. Peer learning and feedback. Self-directed study. Self-reflection and evaluation.
D Key transferable skills	Programme Learning Outcome(s) this maps against	Learning and teaching strategy
<p><i>At the end of the module, learners will be expected to:</i> D5 Create design ideas and communicate intentions visually.</p>	D5	Practical workshops, practical assessments. 1-5 tutorials, whole class teaching.

D Key transferable skills	Programme Learning Outcome(s) this maps against	Learning and teaching strategy
		Peer learning and feedback. Self-directed study. Self-reflection and evaluation.

8. Indicative content.

The programme will introduce a wide variety of structural special effects challenges. An emphasis on experimentation will generate new ideas and develop personal interpretation.

Topics will include the culture and art of transformation, the significance and invention of faces and the practice of transformation Impersonation, age, disguise, disfigure, demons and aliens.

The delivery will include a series of short lectures introducing current key practitioners, practical problem based workshops and demonstrations. Students will investigate a section of moulding techniques including flat plate moulds, 2 part moulds, key and wedging techniques.

Tutorial support will be given at various stages of project development.

9. Assessment strategy, assessment methods, their relative weightings and mapping to module learning outcomes

Assessment Strategy:

Coursework 40%
Practical 60%

Assessment Task	Weighting	Threshold (if applicable)	Week submitted	Grading (e.g. Pass / Fail / %)	Module Learning Outcome(s) the assessment task maps to
Journal	40%			%	A6 D5
Practical	60%			%	B6

Module specification

1. Factual information			
Module title	MMUP552 Make-up Culture & Critical Study		
Module tutor	Andy Howell	Level	5
Module type	Taught, project	Credit value	30
Mode of delivery	100% face-to-face seminars, tutorials and group critiques.		
Notional learning hours	300 hours including: 90 hours seminars including tutorials and group critiques 210 independent learning		

2. Rationale for the module and its links with other modules

This module presents students with an awareness of historical and contemporary make-up design issues within the broad context of stage and screen productions whilst also presenting a range of methodological approaches to research. The module encourages critical analysis through discussion and debate of production design, make-up design, media technology and the future role of the make-up artist and offers instruction in research and writing skills. This module gives the student an opportunity to undertake an in-depth study through examining cultural, social and ethical issues relating to the media make-up industry. The student's personal response to the project launch and their own vocational goals will inform the choice of topic.

3. Aims of the module

- To encourage critical thinking through debate of historical and contemporary production.
- To widen the range of reference and depth of understanding that the student will bring to their practice.
- To provide the student with an awareness and appreciation of a cultural, social or ethical issue relevant to media make-up.
- To develop the student's skills of research, design and reflection, thus enabling them to carry out a project.

4. Pre-requisite modules or specified entry requirements

Completion of previous level 4 modules.

5. Is the module compensatable?

no

6. Are there any PSRB requirements regarding the module?

n/a

7. Intended learning outcomes		
A. Knowledge and understanding	Programme Learning Outcome(s) this maps against	Learning and teaching strategy
<i>At the end of the module, learners will be expected to:</i> A7 Investigate the impact of social, cultural and political influences on media make-up.	A7	1-6tutorials, whole class teaching. Written work, library workshops / sessions Seminars, lectures. Peer learning and feedback. Self-directed study. Self-reflection and evaluation.
B. Cognitive skills	Programme Learning Outcome(s) this maps against	Learning and teaching strategy
<i>At the end of the module learners will be expected to:</i> B7 Appraise information and experiences and formulate reasoned arguments. Integrate theory, context, practice and synthesise and structure information.	B7	1-1tutorials, whole class teaching. Group work. Written work, library workshops / sessions Seminars, lectures. Peer learning and feedback. Self-directed study. Self-reflection and evaluation.
C. Practical and professional skills	Programme Learning Outcome(s) this maps against	Learning and teaching strategy
<i>At the end of the module, learners will be expected to:</i>		1-1tutorials, whole class teaching.

C. Practical and professional skills	Programme Learning Outcome(s) this maps against	Learning and teaching strategy
C7 Identify relevant research sources. Retrieve and generate information in carrying out independent research.	C7	Written work, library workshops / sessions Seminars, lectures. Self-directed study. Self-reflection and evaluation.

8. Indicative content.
<ul style="list-style-type: none"> • A variety of lectures, seminars, films, videos and educational trips will encourage discussion and debate around the subject of production design in a broad context and in relation to make-up design. Contextual theory relating to make-up will be embedded into the delivery of this module. • Topics will be drawn from early cinematography, modern day blockbusters, the history of Broadway, contemporary stage work and small screen production. Students will explore issues of historical authenticity, original and modern adaptations, social, political and cultural influences, technical advances and the implications of transferring a production from one medium to another. • Students will begin to manage their own research strategies with guidance from their tutors.

9. Assessment strategy, assessment methods, their relative weightings and mapping to module learning outcomes
<p>Assessment Strategy:</p> <p>Coursework 100% to include two essays 1x 1000 words and 1x 3000 words and 2x presentations.</p>

Module specification

1. Factual information			
Module title	MMUP554 Major Project		
Module tutor	Brodie Nichols	Level	5
Module type	Taught	Credit value	30
Mode of delivery	100% face-to-face		
Notional learning hours	300 hours including: 90 hours taught including tutorials 210 independent learning		

2. Rationale for the module and its links with other modules

This module will encourage the student to apply the theories and skills of media make-up within a chosen context. This project is an opportunity to celebrate the skills learnt during the 2 year FD programme and allows learners the opportunity to specialise in a certain field or context. Working to a self-generated brief students will produce a 'total look/s' for a design brief surrounding TV, theatre or photographic shoot. Students will be asked to negotiate their self-generated brief.

3. Aims of the module

- To provide the student with the experience of executing resolved work within a self-directed situation which demonstrates an integration of ideas and theories.
- To enable the student to present a piece of work which incorporates the intentions and synthesis of final make-up design.
- To develop the student's confidence in applying creation and innovation to a given design brief.

4. Pre-requisite modules or specified entry requirements

Completion of previous level 4 modules.

5. Is the module compensatable?

no

6. Are there any PSRB requirements regarding the module?

n/a

7. Intended learning outcomes		
A. Knowledge and understanding	Programme Learning Outcome(s) this maps against	Learning and teaching strategy
<p><i>At the end of the module, learners will be expected to:</i></p> <p>A8 Generate ideas, concepts, proposals, solutions or arguments independently in response to a self-initiated brief.</p>	A8	Practical workshops, practical assessments. 1-8 tutorials, whole class teaching. Group work. Presentations. Written work, library workshops / sessions Seminars, lectures. Peer learning and feedback. Self-directed study. Self-reflection and evaluation.
B. Cognitive skills	Programme Learning Outcome(s) this maps against	Learning and teaching strategy
<p><i>At the end of the module learners will be expected to:</i></p> <p>B9 Critically analyse information and propose solutions to problems.</p>	B9	Practical workshops, practical assessments. 1-1 tutorials, whole class teaching. Group work. Written work, library workshops / sessions Seminars, lectures. Peer learning and feedback. Self-directed study. Self-reflection and evaluation.
C. Practical and professional skills	Programme Learning Outcome(s) this maps against	Learning and teaching strategy
<p><i>At the end of the module, learners will be expected to:</i></p>		Presentations.

C. Practical and professional skills	Programme Learning Outcome(s) this maps against	Learning and teaching strategy
C9 Present ideas and work to audiences.	C9	Self-directed study. Self-reflection and evaluation.

8. Indicative content.
Each student will be required to present their own design ideas to a group. The brief will be agreed in advance, of any practical work, with their lecturer. They will be expected to undertake research to support and develop their chosen theme and work to a specific deadline with interim deadlines as the project progresses. They will be expected to complete a reflective analysis of their own performance throughout the project. An action plan for further self-development will be required. The final project will be presented to an audience and include a justification of their choice of methods and design.

9. Assessment strategy, assessment methods, their relative weightings and mapping to module learning outcomes					
Assessment Strategy:					
Coursework: 40% to include a journal and a presentation.					
Practical skills assessment: 60%					
Assessment Task	Weighting	Threshold (if applicable)	Week submitted	Grading (e.g. Pass / Fail / %)	Module Learning Outcome(s) the assessment task maps to
Journal and Presentation	40%			%	B9 C9
Practical	60%			%	A8

11. Teaching staff associated with the module
Name and contact details
Brodie Nichols – NICHOLSB@btc.ac.uk
Andy Howell – HOWELLA@btc.ac.uk
Rhiannon Salter – SALTERR@btc.ac.uk
